

IN THE DRAWINGS:

Please replace drawing sheet 11/12 containing FIG. 14 with "Replacement Sheet 11/12"
attached hereto.

REMARKS

This supplemental amendment and submission of corrected drawings is responsive to the Notice of Non-Compliant Amendment mailed August 31, 2006, and the Examiner's objections to the drawings noted in the original Non-Final Office Action dated May 9, 2006 (hereafter "Office Action"). No new matter has been added.

In response to the drawing objections in paragraphs 1 and 3 of the Office Action, Applicants have amended paragraph 0050 of the specification to correct a typographical error. The spring is now correctly identified with reference numeral 44 instead of 45. Original FIG. 13 already correctly shows spring 44 and slot 45. The foregoing Examiner's objections are addressed and overcome by the specification amendment.

In response to the drawing objection in paragraph 2 of the Office Action, Applicants submit herewith drawing Replacement Sheet 11/12 containing FIG. 14. Item 53 has now been identified in FIG. 14 consistent with the reference to this item in paragraph 0051 of the specification. This objection is addressed and overcome by the drawing revision.

This application is now believed to be in condition for allowance, which is respectfully requested. If there are any issues remaining, the Examiner is invited to contact the undersigned attorney by phone at 212-309-6375.

Respectfully submitted,

MORGAN, LEWIS & BOCKIUS LLP
